Calculus I or needing a refresher in some of the early topics in calculus. I've tried to make these notes as self contained as possible and so all the information needed to read through them is either from an Algebra or Trig class or contained in other sections of the

**CHAPTER 1 Numbers and Functions** The subject of this course is "functions of one real variable" so we begin by wondering what a real number "really" is, and then, in the next section, what a function is.

**Lecture Notes in Calculus** Raz Kupferman Institute of Mathematics The Hebrew University July 10, 2013

**Introduction** These notes are intended to be a summary of the main ideas in course **MATH 214-2: Integral Calculus**. I may keep working on this document as the course goes on, so these notes will not be completely
