WORKINGPAPER ALFRED P. SLOAN SCHOOL OF MANAGEMENT AT THE THEORY OF INTER-INDUSTRY WAGE DIFFERENTIALS WP#1822-86 by Julio J. Rotemberg and Garth Saloner September 1986
This study analyses the interaction between inter-industry wage differentials and the gender wage gap in six European countries using a unique harmonised matched employer-employee data set, the ... Inter-industry wage differentials have been intensively studied since the end of the 1980s. Nevertheless, their existence remains a complex and unresolved puzzle. Indeed, it has been emphasized that: The role of unmeasured abilities in explaining inter-industry wage differentials is still unsettled. To put it differently, there is no consensus on whether high-wage sectors employ a larger fraction of workers with better unobserved abilities.
