

Download Internship Application Letter For Civil Engineering Students

The Industry. Are you looking for engineering internships or entry level engineering jobs? Engineers get paid to solve problems. They use math, science, communication skills, and critical thinking to develop technical solutions for people or society. The SCA Summer Internship Program (“SIP”) recruits talented NYC public high school students for a six-week paid internship with various SCA divisions and SCA business partners throughout New York City. An internship is a period of work experience offered by an organization for a limited period of time. Once confined to medical graduates, the term is now used for a wide range of placements in businesses, non-profit organizations and government agencies.
